10 MIN.

The "Quinta do Robalo" project is located in a nature reserve with low density development and strong ecological/environmental concerns.

Located in a "typical Mediterranean forest", it has a privileged view of the beaches of the Costa de Caparica.

Just 30 minutes from Lisbon airport, it could be a great option for a holiday home or permanent residence with a high quality of life.

Total surface area	350.942m ²
Deployment area	14.584m ²
Total construction area	26.610m ²
Construction of holiday flats	7.200m ²
Construction of villas	19.410m ²
